HI PERFORMANCE SPEAKER SYSTEMS

FR-W2 Dual Speaker Wedge System

Specially designed dual wedge speakers mount on the ceiling and when used with the proprietary dual voice coil subwoofer system, (FR-SW-BOX3 not shown) an awesome sounding experience is created rivaling home stereo equipment costing thousands!!!

For more information visit www.rvgene.com

Outside music will never be the same!!! These unique 6 1/2" speakers were designed to fit up under the RV awning equipment. With the speakers pointing down towards the audience, the sound quality is unmatched in the market. The special "shallow" design eliminates the need to cut an inner wall to accommodate the speaker. It is manufactured with 400 hour UV stable plastic to ensure a long lasting speaker which will hold up to the elements.

FR-M1 Outside Speaker
